

# Enhancing Teletherapy: Essential Tools for Speech Therapy Success

## Participant Worksheet

---

Presenter: Sarah Plunkett, MS, CCC-SLP

**ASHA Statement on Telepractice:** Telepractice services must conform to professional standards including but not limited to: the \_\_\_\_\_, scope of practice, professional policy documents, and other relevant federal, state and institutional policies and requirements.

### Test Your Knowledge

According to ASHA, telepractice must adhere to the Code of Ethics and professional standards.

Circle the Correct Answer:

True or  False

## Considerations for a Successful and Secure Teletherapy Session:

### Platform/Security

- Wifi and Internet capabilities
- Confidentiality and security
- Equipment and materials

### Digital Literacy

- Assess student tech skills
- Practice with facilitator

### Test Your Knowledge

Platforms should be FERPA, HIPPA, and COPPA compliant.

Circle the Correct Answer:  True or  False

### Test Your Knowledge

Preparation for a teletherapy session should include:

Choose the Correct Answer:

- Evaluating technical skills of students and facilitators
- Testing internet capabilities and connectivity
- Assessing equipment like headphones or speakers and microphones
- All of the Above

### Popular Platforms

- Zoom
- Google Meet
- Microsoft Teams

### Test Your Knowledge

Zoom offers security assistance and allows you to remove unwanted participants if needed.

Circle the Correct Answer:  True or  False

### Session Planning and Organization

- Google Workspace
- Calendar apps
- Templates on Teachers Pay Teachers or paid subscriptions like SLP Now
- Other technology considerations: smartphone uses, data collection apps and \_\_\_\_\_ for language samples, etc.

### Test Your Knowledge

\_\_\_\_\_ is an example of a digital asset to help with session planning and organization.

Choose the Correct Answer:  Staples  
 Teachers Pay Teachers  
 SLP Warehouse

### Test Your Knowledge

Which of the following can your smartphone be used for?

Choose the Correct Answer:  Calculations  
 Recordings  
 Data collection  
 All of the Above

## Tips for Virtual Meetings

- Organization
- Secure internet and backup plan if necessary
- Patience (virtual meetings may take longer than in-person)
- Screen sharing
- \_\_\_\_\_ Signatures
- Consider tip sheets for parents

According to ASHA, “virtual platforms can provide useful accommodations for families and team members to participate remotely when needed.”

### Test Your Knowledge

According to ASHA, virtual platforms should not be used for IEP meetings.

Circle the Correct Answer:

True or  False

## Popular Speech Therapy Materials

- Boom Cards
- Ultimate SLP and other subscriptions
- Teachers Pay Teachers
- YouTube
- Highlights Magazine
- PBS Kids
- Super Duper digital
- Social media SLP accounts
- Peachie Speechie
- WorldWildLife, Discovery Education or National Geographic toolkits
- ABCYa
- Toy Theater
- Epic Books or Vooks
- Virtual field trips
- PinkCat games

### Test Your Knowledge

Which of the following provides both free and paid resource options for teletherapy sessions?

Choose the Correct Answer:

- Boom Cards
- Local newspaper
- Google Workspace

### Test Your Knowledge

Super Duper is only available in print format; there are no digital options.

Circle the Correct Answer:

- True or  False

### Test Your Knowledge

Videos can be used in therapy sessions for:

Choose the Correct Answer:

- Warm-up activities for articulation
- Age-appropriate show and movie clips
- Virtual Field trips
- All of the above

## Common Treatment Areas in School-Based Services

- Articulation
- Receptive and Expressive Language
- Fluency
- Social/Pragmatics
- Alternative and Augmentative Communication
- Mixed Goal Groups

**Pause and Reflect:** What activities would you use to target multiple objectives within a mixed-goal group session?

---

---

---

---

**Pause and Reflect:** Pick one area of speech-language skills commonly addressed within school-based therapy (articulation, language, fluency, social/pragmatic skills or alternative/augmentative communication). What activities would you select to target this area in a teletherapy session?

---

---

---

---
